**FOR IMMEDIATE RELEASE**

## **Integrated Business Systems Announces Partnership with Comtech Solutions**

RICHMOND, VA (March 24, 2008) - Integrated Business Systems (IBS), a software and services company serving the technology needs of the club industry, and Comtech Solutions, a financial applications and services leader, announced a partnership today. Together, they offer IBS customers a new choice for Accounting solutions.

Comtech has developed VisionCore, a .NET Accounting and enterprise resource planning (ERP) software that is powerful yet simple. The solution has all of the functions a club could need, such as Order Entry, AR, AP, Purchasing, General Ledger, Reporting, Customer Relationship Management (CRM) and Banking.

Both VisionCore and the IBS suite of products run off the SQL infrastructure and .NET technologies, making it easy to customize features and create additional components that address the needs of the club industry. Both products have a similar look and feel, making them easy to use.

“We are excited to partner with Comtech and eager to resell their VisionCore product. The relationship allows IBS to offer the club industry a robust Accounting solution,” says Kevin Pillsbury, Director of Business Development at IBS.

***Integrated Business Systems, Inc (IBS)*** is a software and services company that has been serving the technology needs of the club industry with integrity and pride for 18 years. Based in Richmond, Virginia, IBS has its software installed at over 1,200 clubs throughout the United States, Canada, Mexico and the United Kingdom. IBS provides complete turnkey systems for busy club administrators, including all PCs, file servers, network configuration and POS equipment. The Company is committed to providing its clients with the highest quality products and services available today. For more information, please visit [www.goibs.com](http://www.goibs.com).

***Comtech Solutions*** is an industry leader in financial applications and services. Established in 1992, Comtech was one of the first companies to develop in Microsoft Access and their Microsoft Access-based applications have won industry accolades for their ease of use and superior features. In 2001, the Company acquired Smart Software Inc. integrating its eCommerce and financial application technology into the company's end user products. In 2002, they continued to expand by opening a development and support facility in the Philippines and becoming early pioneers in Microsoft's .NET framework. Comtech uses cutting-edge technologies to help businesses work smarter and more efficiently. For more information, please visit [www.comtechsolutions.com](http://www.comtechsolutions.com).
